

FAASTeam presents:

Aircraft Ownership Made Easy and Safe

Triple the distance available for your weekend adventure! Aviation opens up your world and can be your time machine.

Most pilots have considered owning their own airplane. Some pilots are reluctant to pursue owning an airplane because they perceive it to be too complicated and expensive. This seminar will simplify the steps you should understand.

This seminar will cover how to select an airplane that best meets your needs, how to find the desired airplane, how airplanes are valued, different ways of owning an airplane, methods of financing the purchase and much more.

Finally, this seminar will cover how pilots can safely transition to their newly purchased airplane and not get themselves into trouble before truly enjoying it.

Directions: On Hwy 680 exit onto Capital Expressway. Travel SE on Capital. At Cunningham Ave (3rd light) turn Right. Trade Winds Aviation is ahead on the Right, the Terminal Building to the Left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
